## EDUCATION

|                          |                                                                                                                                                                                |                 |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|
| Feb. 2023 ~<br>Aug. 2026 | <b>Korea University</b><br>Department of Computer Science and Engineering<br><i>Advisor: Jaehoon Lee</i><br><i>B.S. in Computer Science and Engineering</i><br>GPA: 4.28 / 4.5 | Seoul,<br>Korea |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|

## RESEARCH INTERESTS

- Diffusion Model
- Medical imaging
- generative modeling

## PUBLICATIONS

1. Youngmin Kim, Jaeyun Shin, Jeongchan Kim, Taehoon Lee, Jaemin Kim, Peter Hsu, Jelle Veraart, Jong Chul Ye, "DMD-augmented Unpaired Neural Schrödinger Bridge for Ultra-Low Field MRI Enhancement", Arxiv, <https://arxiv.org/abs/2603.03769> (2026), (Under review at MICCAI 2026)
2. Youngmin Kim, Jeongchan Kim, Taehoon Lee, Jaeyun Shin, Suhyeon Lee, Jongchul Ye, "Ultra-Low-Field Brain MRI Enhancement using Resfusion and Residual Artifact Suppression Network", MICCAI ULF-EnC Challenge Workshop, (2026)
3. Youngmin Kim, Hogeon Park, Heonchang Yu, "동종 이기종 환경에서의 쿠버네티스 트래픽 스케줄링 알고리즘 성능 분석", KCC, (2025)
4. Youngmin Kim, Wonyeong Jang, Taehee Jeong, "Improving Visual Question Answering via Prompt-Level Adaptation and Knowledge-Driven Fine-Tuning: Solution of Meta CRAG-MM Challenge 2025", Proceedings of the KDD Cup Workshop on CRAG-MM, (2025)

## RESEARCH EXPERIENCES

- Research Intern at BISPL(BioImaging, Signal Processing, & machine Learning lab), KAIST, Korea (Jun. 2025 ~ Present) / Research Intern
- Research Intern at Network Latency in Kubernetes, Distributed and Cloud Computing Lab, Korea (Jun. 2024 ~ Jun. 2025) / Research Intern of the lab

## AWARDS AND HONORS

---

- Academic Excellence Award, Korea University, Korea (Jan. 2025)
- Semester Highest Honors, Korea University, Korea (Feb. 2025)
- Semester Highest Honors, Korea University , Korea University, Korea (Feb. 2024)
- Semester Highest Honors, Korea University, Korea (Aug. 2024)
- Semester Honors, Korea University , Korea University, Korea (Aug. 2023)

## PROJECTS

---

- Medical Foundational Model, BISPL, Korea (Aug. 2025 ~ Present)
- ULF to High-field MRI Image Enhancement, BISPL, Korea (Jun. 2025 ~ Present)
- Kaist Map, Kaist Madcamp, Korea / Backend Developer of the kaist map app (Dec. 2024 ~ Present)
- Short Movie Using 3DGS, Korea University, Korea (Nov. 2025 ~ Dec. 2025)
- 동종 이기종 환경에 따른 쿠버네티스 스케줄러 알고리즘 수행시간 분석, Distributed and Cloud Computing Lab, Korea (Jul. 2024 ~ Mar. 2025)
- Goody, GDG on Campus Korea, Korea / Backend Developer of the simple app (Jul. 2024 ~ Feb. 2025)
- 토란(Korean Style Tarot Service Web), Korea University Summer Camp, Korea / Ai Chat Bot Developer (Jul. 2024 ~ Jul. 2024)
